

Alexandria Park Community School

Project update

July 2019

Investing in our schools

The NSW Government is investing \$6.7 billion over the next four years to deliver 190 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over five years. This is the largest investment in public education infrastructure in the history of NSW.

Alexandria Park Community School project

Alexandria Park Community School is being redeveloped to cater for increasing student enrolments from Kindergarten to Year 12.

The new school includes permanent learning spaces, special education learning spaces, and special high school program rooms for subjects such as visual and performing arts, science and metal and woodwork, as well as new core facilities including an administration area, hall, library, gymnasium, multiple sports courts and play spaces.

The school is continuing to operate as usual during construction using temporary pop-up classrooms and facilities for students from Kindergarten through to Year 12.

Progress summary

Demolition works are nearing completion and the Contractor is setting up additional site accommodation and preparing for the commencement of remediation and excavation works.

During demolition the waste material has been segregated to allow the separate waste streams to be

recycled and reused. The Contractor has committed to an 80% target for reuse or recycling of waste during the works.

Upcoming works

Over coming months we expect to complete all demolition works, commence excavation works and prepare for the upgrade of the existing stormwater culvert.

Site Management

All site works are carried out in strict accordance with approved environmental management plans, applicable legislation, regulations, policies and guidelines. School Infrastructure NSW is committed to ensuring the health and safety of Alexandria Park Community School's students and staff and the neighbouring community. Noise, vibration and air quality monitoring will be ongoing during the associated works.

Site operational hours

Standard site working hours are:

- 7.00am to 6.00pm – Monday to Friday
- 7.30am to 3.30pm – Saturdays

No work will take place on Sundays or public holidays.
