24 July 2023

Dear Parents and Carers,

This term in Science and Technology, Year 3 and 4 are learning about the life cycles of living things. To support this learning, we will be conducting a variety of experiments to investigate the growth of plants. One of these experiments requires each student to germinate and grow a seed in a clear jar or container so they can see the roots, shoots and leaves as the plant grows.

We request that each students brings to school one clear jar, glass or cup they can use for this experiment. Larger containers with a wide opening are best. Some ideas are:

- clean Vegemite or peanut butter jar, labels removed
- clean pasta sauce jar, labels removed
- Mason jar
- clear plastic drinking cup
- clear plastic disposable cup

Please send your container to school by Monday 31st August.
They will be returned at the end of term.

Thank you for your assistance with our learning.

Kind regards,

Stage 2 Team

Coco Page, Jacob Ansell, Fernando Jablonski, Madi Fitzpatrick, Lizzie McLaughlin, Sara Touchard and Julien Smith.
